TEAM SELF EVALUATION REPORT

We have been able to complete our original goal of building an ISP Recommender System. The project has been a success only due to the combined effort of all the team members. Each of the team member contributed significantly with ideas and implementation to help complete the project within the given deadline.

TEAM STRATEGY:

- Each group member was assigned some **sub tasks**, both the idea and coding part of the sub-task was handled by the members assigned to the task.

- We often held **group meetings** to solve the problems each one of us was facing and to suggest new ideas for the project.

- The work of each team member was later **reviewed** by another team member before finalizing.

SUB-TASKS ASSIGNED:

P YEDHU TILAK
- Data Visualization
- One-Hot Encoding
- Linear Regression

AKHIL AGRAWAL:
- Outlier Analysis and Removal
- Stratified Sampling
- K-means Clustering

SMIT SHETH:
- Handling Missing Values
- Standardization
- Rating System

PRAKHAR GUPTA:
- Handling Missing Values
- Stratified Sampling
- K-means Clustering
